Mar 2014 - Dec 2016

Federal Polytechnic, Auchi

National Diploma. Electrical Electronics Engineering.
May 2010 - Jan 2013

WORK EXPERIENCE
Front End Developer

FlexiSAF Edusoft Limited (Intern)
January 2024 - April 2024

- Developed and maintained responsive web interfaces, ensuring seamless functionality across devices and browsers.
- Collaborated with back-end teams to integrate RESTful APIs, improving data exchange efficiency by 25%.
- Optimized UI/UX elements, leading to a 15% increase in user engagement

PROJECTS
Ovary-X Cryptocurrency App

- Developed a responsive, intuitive interface using React and Ant Design for seamless desktop and mobile experiences.
- Incorporated live API integration with the Millify framework, enabling real-time data visualization.
- Designed a dynamic news section to provide users with the latest cryptocurrency and exchange updates.

Lendsqr - Customer Management Platform

- Developed a web application to manage customers and their loan portfolios, utilizing TypeScript, React, and Ant Design.
- Integrated a mock API with 500 user records to simulate real-world data interactions.
- Designed the platform to be fully responsive, ensuring optimal performance across desktop and mobile devices.
- Focused on creating a streamlined and user-friendly experience for managing customer data and loan portfolios.
